RE: Limestone project #5/053/012
Washington County, UT

Dear Mr. Hedberg;

I appreciate the help you have been in putting together this small mining operation located in Sec. 2 T435, R18W SLBM.

I have met with Jerry Mansfield on location site Feb. 22, 1990 and reviewed the "Operation & Reclamation Rules" that you had sent. After reviewing said rules I would like to apply for a variance on Item #11, 12, 14.

Item #11. In stabilizing high walls and backfill, I would propose to go to a 12-15 foot terrace on excavation of exisiting ledges. In consideration of this proposal I would cover the flat area with as much top soil or fines as possible. But may not be 6" in depth as referred to in Item #12.

Item #14. Seeding would be done on a basis of topsoil available on site of project.

I would appreciate the consideration of these variance changes. If I can be of any assistance concerning the afore mentioned please feel free to call me at: Office 673-5317 or at my home 673-9759. Thank you.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Omar L. Mathews', written over a horizontal line.
